1940						

## Legendary Customer Satisfaction

Simonton was ranked "Highest in Customer Satisfaction with Windows and Doors, Two Years in a Row."

(Customer Satisfaction: 2010 and 2011)

## The Simonton Brand

We handcrafted our very first products in **1946** when gas was only 15 cents a gallon, the electric dryer was first sold and Dean Martin was just starting his career. Since then a lot has changed, including our products, but our standards for quality haven't budged.

Throughout the years, Simonton has developed and perfected innovative, energy-efficient solutions that our customers have come to trust. Today, our legacy of customer loyalty and satisfaction is second to none.

Our **Reflections® 5500 premium vinyl replacement windows and doors** provide a wide variety of options to ensure that you can find the perfect custom styling solution for your home. With industry-leading energy efficiency, weather resistance and quality, they provide unsurpassed reliability over the long haul. And to top it off, each Reflections 5500 window is custom built specifically for your home, delivered quickly and backed by our **Double-Lifetime Limited Warranty**.

Our goal is to make the process of selecting the ideal window easy. The possibilities are endless, and that's why we're here to help you cut through the clutter with **three easy steps**.

---

**1** Choose Your **Operating** Style:

A wide variety of window and door styles provide functional options that are both pretty and smart.

---

**2** Choose Your **Style** Options: **Decorum<sup>®</sup>**

Choose from a portfolio of popular exterior colors, interior colors, rich woodgrain laminates and custom hardware finishes, to create a custom style that fits your décor.

---

**3** Choose Your **Glass and Grid** Options:

An assortment of energy-efficient glass options allows you to customize your windows to help you achieve the maximum energy savings, no matter where you live. And a wide variety of grid options allow you to accentuate your home's architectural style.

## 1

# Choose your operating style.

With Simonton Reflections® 5500 you can choose from a variety of window shapes and operating styles to complement any room in your home. Whether you want a classic Double Hung or something more modern, Reflections 5500 is the right choice for you.

## Lauren's Style

After ten years in her home, Lauren is finally giving it a well-deserved update. She plans to make her ultimate dream kitchen a reality by adding Awning windows above her counter, a Bay window to overlook her back yard and a new Patio Door to let in more light. She also wants to replace the windows in her living room with vinyl, but is worried that they will not match the windows throughout the rest of her house.

With a wide variety of operating styles from Reflections 5500, she can select Double Hung windows that will operate in the same way as her old windows and get a new Bay window, Awning windows and Patio Door that will coordinate perfectly to really bring her living room and kitchen together.

**Myth** - If I replace my house's old windows, I have to replace them all at once.

In fact, many customers choose to replace their windows in stages. And with Simonton's wide variety of window types and color options, you can select a window that will match your home's existing style.

### PICTURE

Picture windows are the most energy-efficient style available and are fixed – with no movable sash. Choose this style when you want to illuminate a room or provide an unobstructed view.

- Use alone or in conjunction with other styles
- Combine with a Double Hung or Casement for ventilation while adding character to your home

### AWNING

A top-hinged window, also called an Awning, swings outward for ventilation. Create a striking look by using multiple Awnings in both vertical and horizontal mulled configurations.

- Create a contemporary wall of light with a multi-unit Awning design
- Streamlined crank handle easily opens and closes Awning windows
- Corrosion-resistant\* hardware provides a lifetime of smooth operation.

## DOUBLE HUNG

For a timeless look, choose the Double Hung, which is popular in Victorian, Craftsman and Colonial architecture. Both sash on Double Hung windows slide up and down vertically.

- The exclusive Simonton Sill® is triple-stepped and sloped to move water quickly away from your home and to help prevent air infiltration
- Tilt-in/lift-out sash makes cleaning easy from the inside
- The easy-glide sash and balance system allow the sash to raise and lower with ease
- Simonton's patented Lap-Lok® meeting rail helps provide a tight seal for protection against the elements and increased energy efficiency
- Unique Denny Clip™ pivot system keeps sash in perfect alignment for easy operation

## GEOMETRIC

Customize the look of your home with a stunning Geometric window. The dramatic options provide a contemporary look that will enhance any home.

- Select from a variety of optional grid patterns to create a unique look
- Available styles in Half-round, Quarter-round, Eyebrow, Circle, Octagon, Trapezoid, Pentagon and Hexagon

## SLIDER

Slider windows glide horizontally from side to side. Available in a 2- or 3-lite configuration, 3-lite Sliders have operable end vents. They are perfect for replacing large Picture windows to gain ventilation.

- Corrosion-resistant\* rollers and roller track provide a lifetime of easy operation
- Interlocking meeting stiles create a tight seal against the elements
- Lift-out sash can be removed for easy cleaning and maintenance

## CASEMENT

The Casement features a hinged sash that opens outward. If you are looking for optimum ventilation and a wide-open view, the Casement is the perfect choice. Casements are the second most energy-efficient style available for your home.

- Casements crank outward for maximum ventilation and easy cleaning
- Optional folding crank handle allows for easy and convenient operation
- Advanced locking system secures sash at multiple points with one, easy-to-use handle

## GARDEN

A Garden Window can bring a little bit of the outdoors in year-round.

- Two side windows can be opened or closed with the simple turn of a crank
- Seat boards are available in white pine laminate or wood veneer in either oak or birch and can be painted or stained
- Top-sloping insulating glass unit tempered for breakage resistance
- Sill cover resists water penetration
- Multi-point, single-lever locking system for added security
- Corrosion-resistant\* hardware provides a lifetime of smooth operation.

## BOW

A Bow window features windows mulled at 10-degree angles, which creates a rounded, more circular appearance than a bay.

- Bow windows feature 3-, 4- or 5-unit designs
- Equal-sized Double Hung or Casement windows can be used to create a Bow window with excellent ventilation
- Ideal for large window openings
- Head and seat boards in oak or birch veneer can be painted or stained to match the interior of your home

## BAY

Open up your home and bring the outside in with the addition of a Bay window. The dramatic look of a Bay creates a special nook and adds dimension to any room.

- Bay windows feature either Double Hung or Casement windows on each side of a center Picture window
- Available in either 30- or 45-degree angles
- Ideal for larger openings
- Head and seat boards in oak or birch veneer can be painted or stained to match the interior of your home
- Insulated head and seat boards provide increased thermal efficiency

## PATIO DOOR

Redefine your living space with a Reflections 5500 Patio Door. Large glass areas open up a room while allowing easy access to the outside.

- Fusion-welded frame provides strength and thermal efficiency
- Double-strength tempered glass for increased safety
- Corrosion-resistant\* rollers allow door to open and close smoothly
- Color-coordinated handle options to match your style
- Exterior keyed lock for maximum security
- Foot bolt for partial ventilation
- Sidelites and transoms available for added light and character

## GARDEN DOOR

With a Garden Door you can create an elegant entryway for your home and achieve a greater sense of security.

- Continuous, fixed-geared hinge eliminates panel sag and increases weatherability
- Thick, high-performance weatherstripping
- 7/8 inch tempered insulating glass unit for greater thermal efficiency
- Available in center-hinge and French-hinge styles that swing in or out
- Solid brass handle with center bolt and keyed lock for increased safety
- Available with a white or tan interior and exterior

2

## Choose your style options.

With Simonton, finding the perfect match just got a lot easier. Every Simonton Reflections® 5500 window can be ordered with Decorum®, a portfolio of popular exterior and interior colors, rich authentic interior woodgrain laminates and popular hardware options designed to match metal finishes unique to your home.

**Myth** - If I replace my old windows with vinyl instead of wood, they won't match my cabinets or trim.

Actually, Simonton offers warm, realistic woodgrain interiors, including Antique Cherry, Maple or Contemporary Oak to match your cabinets and the other wood within your house perfectly. In fact, many people find it hard to tell that it's actually vinyl.

### *Mark & Karen's Style*

Mark and Karen have been gradually updating their home over the last couple years and the next step is to replace their old windows. They prefer vinyl because they want to increase their home's energy efficiency, but they would also like the new windows to match their home's cabinetry, hardware and faucetry.

With Reflections 5500 windows and Decorum, Mark and Karen can choose an exterior color to match the outside of their home and our Antique Cherry woodgrain interior to match their cabinetry. They can also select Brushed Nickel locks to coordinate with their cabinets and their new Moen® faucet.

Whether you want to match your home's current style or change it entirely, the right style selections can go a long way. Choose from the options below to design your ideal window or door.

## Exterior and Interior Colors – Standard

## Exterior Colors – Custom

## Interior Woodgrains – Custom

## Hardware Finishes – Standard

Tan

## Hardware Finishes – Premium

Brushed Nickel

Oil-rubbed Bronze

Driftwood

Dark Bronze

Polished Brass

\*Exterior colors are not available with a Driftwood interior  
Decorum options are not available on Garden Door or Garden Window

### 3 Choose your glass and grids.

The right glass and grid style can transform the look of your home and accentuate its unique architectural style. With Simonton Reflections® 5500 you can choose from numerous decorative and specialty glass options, as well as a wide variety of grid patterns and styles.

**Myth** – I love how my old windows look and if I replace them with vinyl my house won't have as much character.

The days of the stereotypical white, vinyl window are long gone. Simonton vinyl windows have been approved and installed on numerous historical renovation projects with beautiful results. Our wide variety of glass and grid options can help you create a look that is as classic, modern, traditional or untraditional as you want.

#### Give Yourself a Little Peace and Quiet

Do you live in a noisy area or next to a busy street? You might want to consider our laminated glass, which is designed to reduce unwanted noise infiltration. Even if you have just one bedroom or an office that you'd like to be a little quieter, a window with our laminated glass will make a dramatic difference and look just like the rest of our standard glass windows.

From traditional to more contemporary, the perfect combination of grid patterns, glass options and grid styles can help you create the look you want.

### Grid Patterns:

Colonial

Sculptured White

Sculptured Tan

Sculptured Driftwood

Sculptured Maple

Sculptured Contemporary Oak

# Energy efficiency that's both comforting and comfortable.

Each of our Simonton Reflections® 5500 windows is designed with energy savings in mind. By choosing Reflections 5500 you're not only helping to reduce your heating and cooling costs; you're also keeping the outdoors in its place year-round.

## Amy's Style

After eight years in her home, Amy is fed up with outrageous energy bills and has finally decided to replace her old aluminum windows. She knows vinyl windows are the most popular choice among builders today, that they will help her cut energy costs and that they will hold up well against Mother Nature.

With Reflections 5500 windows Amy can enjoy greater comfort and peace of mind during the hottest and coldest parts of the year. And thanks to our advanced thermal features, she can expect a great return on her investment.

**Myth** – Any type of replacement windows will increase the energy efficiency of an older house; it doesn't matter what material they are made out of.

Although energy-saving technology has come a long way over the last 10 years, not everyone has taken advantage of it. When it comes to energy efficiency, premium vinyl is hard to beat because it is one of the least conductive materials available.

## Quality Insulation

Do you worry about condensation in your windows during the colder months of the year? Simonton Reflections 5500 windows help reduce temperature conduction and the potential for condensation. Our sealed, insulating glass units are set  $\frac{3}{4}$  inch into the sash, providing extra insulation to keep the glass warmer.

Reflections 5500 comes standard with features that help **keep unwanted weather out:**

Our patented **Lap-Lok® meeting rail** overlaps and interlocks the sash to create a tight seal that virtually eliminates air and water infiltration

The **Intercept® spacer system's unique U-shaped design** keeps glass warmer for increased efficiency and comfort, while flexing and contracting to reduce seal failure

Our exclusive **triple-stepped, sloped Simonton Sill®** forces water away from the window more quickly than flat, conventional sills to help protect your home from water infiltration, even in heavy rain

**ProSolar® Low E Glass with an Argon gas fill** blocks ultraviolet rays to protect home furnishings from fading, and acts as a sort of "super barrier" to temperature – keeping cool air inside in the summer and cold air out in the winter

Can be ordered to meet **ENERGY STAR®** guidelines for any region of the country, no matter where you live

# Our standards are just as high as yours.

Every Simonton Reflections® 5500 window and door is manufactured under our stringent quality-control system. They're also backed by 65 years of engineering and innovation to ensure that the products you put in your home are durable and hassle-free.

**Myth** – All window materials are about the same.

We recommend inspecting your windows once a year. However, vinyl windows require much less maintenance over time than wood windows. Unlike wood, vinyl won't rot, peel or flake. And they don't require scraping or painting. In fact, premium vinyl windows maintain their original beauty and require virtually no maintenance over time.

## Karl & Janet's Style

Karl and Janet have lived in their home for 20 years and are planning to replace their old wood windows with vinyl. After scraping and painting wood windows for the past 20 years, Janet is looking for a solution that requires the lowest amount of maintenance possible. Karl loves what he's heard about vinyl, but wants to make sure that they make a quality investment in their home. Having recently retired, they both want to be able to travel or go on vacation and not worry about protecting their home from the elements.

With Reflections 5500, they can both have exactly what they want. Simonton vinyl windows are extremely low maintenance. And our industry-leading quality will give Karl and Janet the peace of mind they're looking for, while at home or abroad.

Reflections 5500 makes taking care of windows **simple**:

**Grids located between the two pieces of glass** eliminate the need to dust or clean window grids

**Operable sash that tilt and lift out** allow you to clean both sides of the window quickly and easily, from inside your home

Reflections 5500 windows and doors **remain low maintenance** over time because they don't require regular painting and do not rot, flake, peel or chip like wood windows.

When it comes to Simonton, the **quality** is in the details:

A **contoured lift rail** is actually molded into the sash to provide lifetime durability

A **Stainless Steel Constant Force Coil Spring Balance System**, allows you to easily move the window sash to any desired position, even after years of use

Our unique **Denny Clip™ Pivot System** helps to maintain perfect sash alignment on Double Hung windows

**Fusion-welded construction** bonds each corner together to create a rigid, one-piece frame that offers reliable strength and durability

Every window that Simonton builds is **AAMA Gold certified**, which means that it has passed stringent tests for air leakage, water infiltration and wind pressure

When you choose Reflections® 5500 windows and doors, you're also choosing Simonton, a trusted company that people have been coming home to for more than 65 years.

### Recognized for **quality**.

Every window and patio door that Simonton manufactures is AAMA Gold certified.

### Recognized for **customer satisfaction**.

"Highest in Customer Satisfaction with Windows and Doors, Two Years in a Row."

### Recognized for **comfort**.

We know that replacing your windows is a big investment and we understand that every big investment should come with peace of mind. That's why we back every Simonton Reflections 5500 window and door with our **Double-Lifetime Limited Warranty**.

Simonton Windows received the highest numerical score among window and door manufacturers in the proprietary J.D. Power and Associates 2010-2011 Windows and Patio Doors Satisfaction Studies™. 2011 study based on responses from 2,605 consumers measuring 11 brands and measures opinions of consumers who purchased new windows or patio doors in the previous 12 months. Proprietary study results are based on experiences and perceptions of consumers surveyed in March-April 2011. Your experiences may vary. Visit [jdpower.com](http://jdpower.com)

Simonton windows and doors are tested to the advanced AAMA Gold Label Certification Program. The Gold Certification is AAMA's highest level of testing with windows and doors being tested for thermal performance as well as air, water and structural integrity. The standard AAMA silver label only requires thermal testing. Simonton's Product Development Center is an ATI-certified lab site that enables us to perform thorough, in-house structural and thermal testing. An AAMA gold label certifies that the units assembled on the production lines are using the same process and components as the unit that was tested. Only the AAMA Gold Label indicates that: The product underwent testing based on the stringent requirements of the ANSI/AAMA/NWWDA101/I.S.2 and AAMA/WDMA/CSA 101/I.S.2/A440-05 industry standards. Certification to AAMA506/conforms to requirements of ASTM E 1886 & 1996. These tests were performed at an independent AAMA-accredited testing laboratory. An Independent (third-party) Validator through two unannounced plant inspections each year has continuously monitored the product production for compliance. ©2012 Simonton Building Products, Inc.
